The Five Star Mastermind Method

**Over 80% of all masterminds fail within the first 90 days.
Make sure yours doesn't.**

Hey mate,

All I wanted was a focused and fun mastermind group. All I got was frustration. It felt like a complete waste of time, because it turned into a social hour and bitch session.

I decided to start asking questions, REALLY reading Think and Grow Rich, listening to what Napoleon Hill actually SAID about mastermind in some rare recordings, and interviewing people who had proven masterminds that worked.

What I discovered was so simple, that I couldn't believe that it would transform my entire life, AND give me a powerful, focused and fun Mastermind Group too!

Think about this...

- You might be an expert, but the IDEAS - ENERGY - AND CONNECTIONS generated by a TRUE Mastermind Alliance will make you a wealthy expert!
-

Because if you look back in history, you'll see that no lasting wealth was EVER BEEN MADE, without some form of a mastermind alliance.

THREE KEYS TO FORMING A STRONG MASTERMIND ALLIANCE.

"It's obvious, if you don't design your mastermind with a system, if you don't know exactly who to recruit and who not to (and the reasons why) and if you don't have have a system that works to run your meetings, keeping them BOTH FUN AND FOCUSED your mastermind will fail."

Having a system in place, from the moment you decide to form one is VITAL to

bringing it to life, and keeping it alive.

Could this be why is it that some people absolutely love masterminds – and benefit from them wildly on many levels, **and other people can't seem to get one off the ground**, keep it going, or get anything of lasting value after putting in tons of time and energy?

“Successful masterminds are successful by design.”

Five Essential Elements that EVERY successful mastermind has:

A successful mastermind is built using a proven formula or system. Many Mastermind Groups that I see fail because they were never set up as masterminds. Napoleon Hill said an alliance must have FOUR essential elements for it to be a Mastermind. *(This is the KEY to unleashing the power of THE GROUP MIND that can only show up in a TRUE MASTERMIND.)*

A successful Mastermind Group recruits only people who can and will benefit all the members of the group. If you recruit “dead batteries” you will drain the energy and life right out of your group, and you won’t UNLEASH the POWER that is available to a REAL MASTERMIND.

A successful Mastermind Alliance is run according to specific principles. If your members follow these specific principles, they can’t help but bring tons of energy, creativity, and results to the meeting. (If your Mastermind doesn’t have these principles, it will die.

A successful Mastermind Meeting “weeds it’s own garden”. That’s what Grandpa used to say any successful business does. What he meant is that it gets rid of ANYTHING that drains it of energy, makes it lose it’s focus, or prevents it from being effective.

A successful Mastermind has what the Native Americans called Good Medicine. It literally has a powerful, sacred space and energy that holds it together. You’ll be learning the four specific ways that the Native American elders I worked with generated that respect, energy and space.

We designed the Five Star Mastermind System when, my wife Carol and I formed another mastermind group. We were out on our deck enjoying some cigars, “masterminding” and we decided to compile our notes, and emails to develop an easily duplicatable Mastermind System that would help anyone construct a powerful, like changing Mastermind.

**Does YOUR Current Mastermind have all FIVE elements taken care of?
Will your next one?**

The Five Star Mastermind System grew from those meetings and notes. As you read about the system below, remember you'll be able to read the handbook in less than 30 minutes, it is designed to be a quick and easy read. You'll be able to implement it immediately, and you will be able to *form your own effective Mastermind Alliance easily within the next SEVEN days!*
